

Jonah's New Vehicle

Praise God. After a series of miraculous interventions by God just prior to Christmas, Jonah now has his new car bought in South Africa and transported to Zimbabwe. It is a Toyota small minivan which will be good for transporting people in from the rural areas to training sessions and for transporting foodstuffs for the community from South Africa.

We are so grateful to all who contributed so generously to our work in this very needy country. Jonah has now fully recovered from his near fatal accident and with the provision of the vehicle is now mobile and back at work again. Praise God!
